9 April 2005

Dear Sirs,

This should give you the information needed to process the amended patent application for the "Framers Layout and Cutting Guide". I've signed all the pages where changes have been made, which includes just about all of them, because I didn't have the paragraphs marked properly. "Abstract of the Disclosure" and "Sequence Listing" were also signed because I deleted several pages of unnecessary data on stud locations thereby altering the page numbers. The only thing not included, from the original patent application, were the set of drawings as they haven't changed.

Thank you.

Don Gregory French
